

## **Position for business development & operations**

We are looking for a talented entrepreneur-minded candidate with knowledge in business development and administration to work in our founded start-up.

We are EpiQMAx, a GmbH in the Biotechnology Business Area. EpiQMAx offers a service to pharmaceutical companies and research institutes for the measurement of epigenetic modifications on histones and for general protein analysis using mass spectrometry. Our mission is to foster the realization of epigenetic tests to the clinics and help research laboratories on the decoding of epigenetic mechanisms.

The selected candidate will have the opportunity to become sales manager and/or financial manager of our startup.

The ideal candidate shall have/perform the following

- Requirements/skills: Master degree in Business and/or Marketing
- Duties: budget/cash management, writing ledgers, getting new customers, company promotion and sales/marketing strategy, writing a plan for capital investment, financing strategies, positioning our service in the market.
- Responsibilities: Decide whether to lease or buy a mass spectrometer (a-half-to-1-million-dollar apparatus). Decide which customers, business lines and products are profitable.
